

RP 50 / RP 30 TEST PUMPS

RP 50

For quick and exact compression testing and leak testing on piping systems and containers in plumbing and heating installation, boiler and pressure vessel manufacture, and filling solar systems.

The RP 50 is an indispensable testing device for every installer: fill and compression test in one set up, with water or oil.

- Twin valve system in monoblock design
Constant pressure levels and reduction of leak-prone connections
- High performance
Long stroke for quick filling
- Steel reinforced test hose
No false reading from hose bulging
- Distortion-proof handle with lockable arm
Doubles as carrying handle
- Weather- and cold-proof cover
5 Year, rust-free guarantee

Cut-off valve in monoblock design

RP 30

For quick leak testing of smaller piping systems and containers in plumbing and heating installations.

- Single-valve system
Simple operation
- Steel reinforced test hose
No false reading from hose bulging
- Small dimensions
Ideal for confined spaces
- Container made of ABS plastic
Impact resistant and non-breakable

SPECIFICATIONS

RP 50

Testing and pressure range: 0 – 60 bar, 1 bar steps
0 – 860 psi, 20 psi steps
0 – 6 MPa, 0.1 MPa steps

Tank Capacity: 3.2 gallons

Stroke Capacity: 1.5 oz/stroke

Dimensions: 28 1/2" x 6 5/8" x 10 1/4" (L x W x H)

Connections: R 1/2"

RP 30

Testing and pressure range: 0 – 30 bar, 1 bar steps
0 – 440 psi, 20 psi steps
0 – 6 MPa, 0.1 MPa steps

Tank Capacity: 1.2 gallons

Stroke Capacity: 0.67 oz/stroke

Dimensions: 17 3/8" x 7 7/8" x 9 1/2" (L x W x H)

Connections: R 1/2"

ORDERING INFORMATION

Description	Size	No.
RP 50 Test Pump	60 bar	61004

Spare Parts

Extra pressure gauge with drag indicator, R 1/4" connection	16 bar	61316
Replacement piston		61300
Seal set		61301
High pressure hose with 1/2" connection		61306

Description	Size	No.
RP 30 Test Pump	30 bar	61130

Spare Parts

Replacement piston	61138
Test hose	61125
Repair set	61160
Includes: valve wheel, pressure gauge plastic ball, Seeger circlip ring M8
